Keiser is always challenging the status quo of fitness science by exercising the most powerful muscle: the brain. While competition starts and ends within the limits of a machine, Keiser starts with the potential of the human body and develops smarter technology to unknow the limits of speed, efficiency and safety.
POWERED BY AIR RESISTANCE (PNEUMATICS), KEISER STRENGTH EQUIPMENT WEIGHS LESS AND IS QUIETER THAN IRON-BASED MACHINES. COMPRESSED AIR IS DELIVERED TO THE MACHINES THROUGH KEISER’S AIR SUPPLY SYSTEM, WHICH FEATURES TRIM AND OUTLETS THAT ARE CUSTOM-DESIGNED TO ACCOMMODATE ANY INSTALLATION REQUIREMENTS AND BLEND INTO YOUR GYM LAYOUT.

LARGE COMPRESSOR
Designed to work behind the scenes away from the exercise area and engineered for durability, the Large Compressor features a dryer unit that supplies clean, dry air for up to as many as 18 Keiser machines.

SPECIFICATIONS
HEIGHT
28” / 711 mm
WIDTH
16” / 406 mm
LENGTH
49” / 1245 mm
