KEISER STRENGTH

AIR250

AIR250 LEG PRESS

NOT JUST BETTER MACHINES, BETTER SCIENCE

Keiser is always challenging the status quo of fitness science by exercising the most powerful muscle: the brain. While competition starts and ends within the limits of a machine, Keiser starts with the potential of the human body and develops smarter technology to unknow the limits of speed, efficiency and safety.

KEISER STRENGTH

Introduce precision to your strength training programs. Our machines are equipped with patented Keiser Pneumatic Technology to give everyone from first-time gym members to pro athletes a safer, easier, more efficient way to boost power output, improve core stability and gain overall muscle performance.

AIR250

AIR250 LEG PRESS

THE AIR250 LEG PRESS FEATURES A BILATERAL LEG MOVEMENT FUNCTION

Its simple design and ease of adjustment makes this a perfect starter piece for facilities.

KEISER PNEUMATIC RESISTANCE SYSTEM

With Keiser Pneumatic Technology, the muscles remain active and engaged throughout the entire range of motion and velocities, with reduced shock loading to muscles, connective tissues and joints, which allows for workout regimens that can safely improve physical performance in ways not seen with traditional strength training methods.

FEATURES

- Cost-effective way to provide strength training options
- Virtually zero shock to muscles, connective tissues and joints
- Smooth pneumatic resistance
- Fully adjustable to accommodate a wide range of
- Bilateral movement for body symmetry training
- Large digital display with resistance and counted repetitions
- Durable construction engineered for years of use
- Thick base for added stability
